How Product-Based Consignment Fundraising Works

Our product-based fundraising program is designed with zero risk for your organization. You only pay for the items that you sell during your fundraising event, and any unsold items can be returned to us. The price you pay of **\$14.99** includes both shipping and returns, making the process simple and worry-free. Products not sold need to be returned in their original packaging. We recommend a sale price of **\$24.99** Each.

Getting Started

To begin, please complete the order sheet and consignment agreement. Indicate how many of each image you wish to order, with a minimum total of 25 pieces. Once we receive your selections, we will start processing your order. We recommend beginning with 50 total pieces, as this quantity provides a good fit for both parties.

Product Details

The first image shown in the top left corner of the order sheet displays our 360 degree imprint capability. The remaining images represent the flat designs prior to our 360 degree printing.

Production Process

Our vibrant products are crafted one at a time in our **Union Shop**. We regularly introduce new images every few months to keep the selection fresh and appealing. We are capable of producing 250 to 300 pieces each day. This allows us to accommodate fundraisers of varying sizes and ensure timely fulfillment.
